

## ABSTRACT:

*Sub p2*  
The present invention relates to an auxiliary part (7) for mounting and removing accessories such as a skin-stretcher (9), a lubricator (14), etc. on and from the outer cutting member (4) of an electric shaver.

In order to provide a cheap and simple part for mounting and removing accessories around and/or on a shaving head in a simple and quick manner, the auxiliary part according to the invention is characterized in that it is formed by an element (8) which at one side can be connected to the outer cutting member (4) and at its other side is provided with connecting means for one or more accessories (9, 14).
